Why choose a Frama franking solution?

Made in Switzerland

Swiss made, peace of mind

Frama has over 40 years of expertise in the development and manufacture of solutions within the mail-processing sector. High Quality reliable products are the foundation of our success.

The strategic strengths of Frama AG arise from our efforts to take full advantage of the technological expertise of our team, which is located at our headquarters in Lauperswil, Switzerland. All Frama products are manufactured in Switzerland and carry the "Made in Switzerland" seal of quality.

FRAMA CARES
Maintenance Agreement

Transparent pricing & Award-winning maintenance

Frama is determined to stand out as the supplier of choice, offering a clear alternative approach. Transparent pricing is a fundamental principle of Frama's offering to the market building trust and confidence between supplier and customer.

Our all-in-one franking package includes award-winning maintenance cover, ensuring your postal solution is always ready when you are!

Our unique approach has been recognised in the form of industry awards, covering technical achievement and customer friendly products and services.

FRAMA CARES
Quality ▪ Value ▪ Efficiency ▪ Service

Quality, Value, Efficiency & Service - Guaranteed!

Frama always go the "extra mile" in delivering an exceptional standard of service - from your first point of contact to the after sales process.

We operate nationwide service coverage, co-ordinated by our UK based customer care team and our technicians are very proud of their 98% first time fix rate.

The initial purchase is only the beginning of our relationship and Frama prides itself on delivering great service throughout the life of the product.

FRAMA ONLINE

Simple – secure – straightforward!

FramaOnline2 guarantees the secure and efficient updating of every aspect associated with your Frama franking system. Working in the background, FramaOnline2 securely manages the data flow between Royal Mail, your bank and your franking system.

Frama also creates the data streams necessary to ensure the calculation of VAT with HMRC. FramaOnline2 is certified for IT security as per ISO 27001.
MailMark™

Save even more with MailMark™

Benefit from the latest developments in franking technology! The Royal Mail Mailmark™ standard ensures simple and straight forward product selection and savings on postage. Mailmark™ is always the cheapest tariff in the franking channel, making a significant saving over stamp usage. Simple tariff updates via LAN, accurate postage calculation and a more professional image all contribute to a fantastic value offering.
